

TESTING CENTRE OF EXCELLENCE

A brand new Testing Centre of Excellence has been opened by NMQA. It is fully equipped with testing professionals, servers and cutting edge testing software and testing processes.

"Fast, flexible, thorough and efficient - NMQA have been a pleasure to work with."

Lir Cowman | Digital Operations Director | Iris Digital

NMQA's Testing Centre of Excellence Key Features

Hire professional UK Testing resources at prices similar to hiring permanent or even offshore resources.

"Subscription Service where you hire a 'seat' in our testing centre for a low monthly fee. We work with you to plan out the best use of your time with us, whether we execute functional tests, conduct performance testing, or even run UI security checks. You are no longer limited to the capability of an individual."

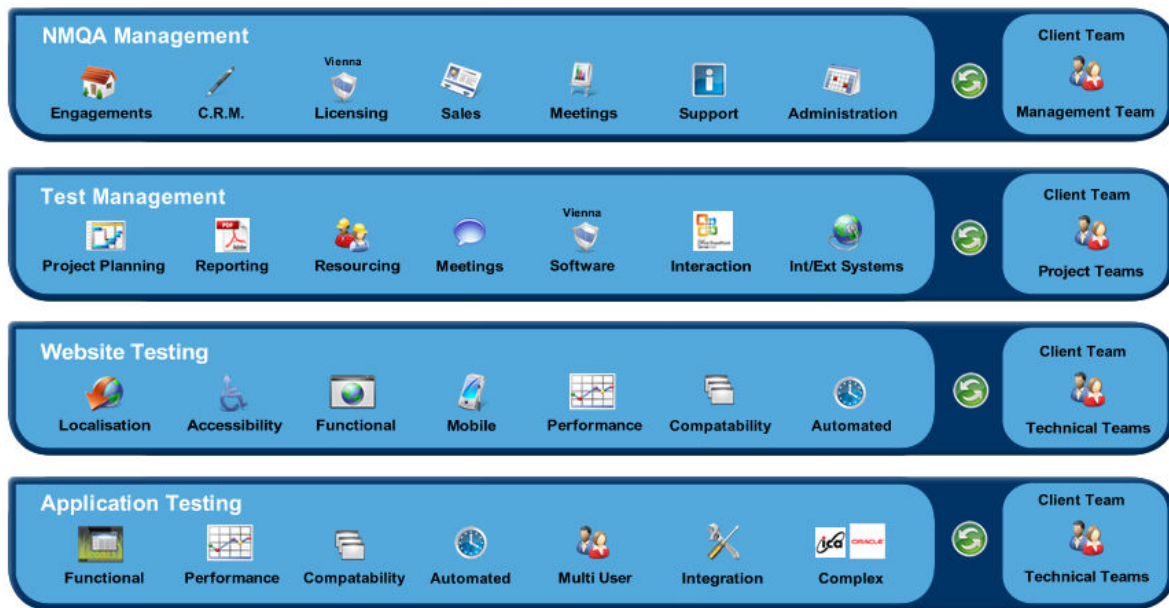

FREE Test Management support from senior members of NMQA's TCE Team.

Our testing professionals have access to the following software and systems:

- ✔ Vienna NMQA's Test Management Tool
- ✔ Performance Testing Tools
- ✔ Automation Testing Tools
- ✔ Virtual Environments, vmware, MS Virtual PC
- ✔ Accessibility Testing Tools
- ✔ Microsoft SharePoint for your Projects
- ✔ High Specification Load Generator Machines

Capabilities & Structure

Benefits of Using NMQA's Testing Centre of Excellence

NMQA will provide your organization with:

- ✓ World class testing practice over night
- ✓ Access to testing experts and subject matter experts in a number of fields
- ✓ Dedicated technical testing team at a lower cost than hiring a permanent Test Team
- ✓ Fully integrated test team capable of working to any methodology
- ✓ Consistent and standardised working practices and reporting
- ✓ Pre-configured performance & compatibility testing environments
- ✓ Vienna (NMQA's Test Management Tool) and a branded SharePoint site
- ✓ UK based outsourcing partner that can be visited at any time

Why NMQA's Centre Of Excellence?

Example of some of NMQA's Consultancy Clients:

The Global Economic Downturn is forcing companies to cut software testing costs. This is being achieved through outsourcing and reductions in software budgets.

Example of some of NMQA's Test Labs Projects:

As a result, NMQA's Test Lab Service has grown by 364% in the last year. This service has formed the basis of the engagement model for NMQA's UK Testing Centre of Excellence

How Does My Company Interact With The TCE?

Your Test Team within the Testing Centre of Excellence can interact with your Management and Technical Teams in the following ways:

- ✓ Utilise your defect management and reporting systems
- ✓ Your Choice of Instant Messenger Client (Voice Enabled)
- ✓ Utilise NMQA's TCE systems: Microsoft SharePoint & Vienna
- ✓ Weekly Meetings by Conference Call or Video Call via IM
